PROFESSIONAL SUMMARY

Defence and UAS consultant with 14 years of experience spanning military training, UAV operations, product lifecycle support, and creative production. FAA Part 107 and DGCA RPAS certified, with 10,000+ flight hours supporting the Indian Armed Forces, private UAV companies, and autonomous aircraft programs. Translate frontline and client requirements into tactical deployment guidance, operator training, production workflows, and field-ready capabilities. Bridge operators, manufacturers, and technical teams to deliver mission-focused solutions. Bring additional expertise in FPV and aerial cinematography, AV systems, and technical production to create compelling content and integrate creative needs with operational requirements.

SKILLS

- **Drone Operations:** Drone Operations, Flight Data Analysis, System Diagnostics, Safety Compliance, Maintenance Precision Flight Execution, Autonomous & FPV Operations.
- **Mechanical, Electrical, & Media Systems Integration:** System Assembly, Sub-assembly Installation, Troubleshooting Hardware/Software Troubleshooting, Camera & Sensor Integration, Virtual Production & AV Systems Support
- **Maintenance, Repair, & Quality Assurance:** Precision Work with Hand Tools, Troubleshooting Drones, Cameras and Production Equipment, Preventative Maintenance, Testing & Quality Assurance of Flight and Media Systems.
- **Creative Production & Storytelling:** Cinematography (Aerial, FPV, Studio), Visual Storytelling, Shot Planning, Lighting Design, Interview & Documentary Production.
- **Post-Production & digital Workflows:** Video Editing, Post-production Workflows, Audio Sync, Media Asset Management.
- **Software & Tools:** CAD, Microsoft Office, Linux, Windows, Python scripting (familiar), Adobe Creative Suite, JIRA, Asana.
- **Project Management:** Cross Functional Collaboration, Technical and Creative Direction, Process Optimization, Safety Management, Independent Problem Solving.

PROFESSIONAL EXPERIENCE

INDIAN ARMED FORCES & PRIVATE UAV/UCV COMPANIES — *Mumbai, India*

Independent Defence & UAS Consultant — *March 2026 - Present*

- Train military personnel in UAV fabrication, assembly and flight operations, building practical skills for effective field use.
- Advise on the tactical employment of aerial assets, translating frontline requirements into mission-focused deployment and operator-readiness guidance.
- Support private UAV companies across the product lifecycle, from requirements and product planning to production-line structure and field feedback.
- Align client needs with engineering, production and operations teams, turning requirements into clear priorities and actionable delivery plans.

ORBITER MEDIA — *Mumbai, India*

Founder & Aerial DP — *November 2019 - Present*

- Continuing to consult on UAV operations, aerial cinematography, and technical integration projects while expanding into innovation-led drone applications.
- Pioneered the integration of FPV drones in 50+ multimedia projects, enhancing production quality and client satisfaction.
- Managed comprehensive production support, including camera operation and lighting design, for high-profile projects, increasing client retention by 20%.
- Trained and supervised a team of 15 drone operators, enhancing their troubleshooting and equipment maintenance skills, which improved team efficiency and reduced maintenance time by 25%.

BRINC DRONES, INC. — *Seattle, WA*

Production Technician — *March 2025 - November 2025*

- Executed precision assembly and rigorous testing of advanced electronics and electromechanical systems, ensuring adherence to stringent quality, compliance, and performance standards.
- Spearheaded process optimization initiatives, authoring assembly documentation, troubleshooting complex technical issues, and recommending design enhancements to improve reliability and efficiency.
- Partnered with engineering, quality, and supply chain teams while mentoring technicians, driving operational excellence, safety compliance, and continuous improvement across production operations.

AMAZON PRIME AIR *(Contracted through Collabera LLC.)* — *Seattle, WA*

Operator In Command and Safety Officer — *September 2024 - March 2025*

- Operated MK38 drones to collect critical flight data for autonomous aircraft development, ensuring precise data capture and safe flight operations in various conditions.
- Executed complex flight missions as Operator in Command for Amazon Prime Air's DA2 Team, contributing to advancements in autonomous drone technology and delivery solutions.
- Collaborated with cross-functional teams to analyze flight data, identify system improvements, and optimize drone performance for enhanced operational efficiency.

MATTERS AT PLAY / PUSH STUDIO, DePaul University — *Chicago, IL*

Research Assistant — *August 2023 - June 2024*

- Supported multimedia production efforts, contributing to 10+ projects utilizing virtual production technologies, including VIVE Mars CamTrack and MoSys along with maintaining and updating the AV peripherals as needed.
- Collaborated with subject matter experts to develop strategic marketing materials, resulting in a 15% increase in content engagement.
- Provided on-location support for over 10 projects, ensuring optimal lighting and camera setup to produce high-quality footage.
- Led interview setups for VR experience projects, coordinating lighting and audio needs to ensure professional quality.

PUSH STUDIO, DePaul University *Chicago, IL*
Director of Creative and Technical Production *June 2023 – June 2024*

- Managed and directed the production of 15+ multimedia AV projects, leading a team of videographers and photographers.
- Provided technical support for AV systems used in multimedia content production, including troubleshooting and maintenance of LED volumes, sound recording and broadcast equipment, video equipment, and drone cameras.
- Utilized Adobe Creative Suite for editing, ensuring consistent quality across all projects, reducing post-production time by 20%.
- Introduced new AV Techniques and Technologies, enhancing project quality and increasing production efficiency by 25%.

PUSH STUDIO, DePaul University *Chicago, IL*
Multimedia Content Producer *November 2022 - June 2023*

- Led the production of 25 multimedia content pieces, including videos and social media posts, increasing social media engagement by 30%.
- Directed on-set activities for 15+ productions, coordinating talent and technical setup, resulting in a 95% client satisfaction rate.
- Collaborated with the Corporate Communications team to develop multimedia content for social media channels, contributing to a 40% growth in online followers.

BRAINWING AERIAL SERVICES LLP *Mumbai, India*
Head of Aerials & Marketing *March 2015 - October 2019*

- Directed 40+ multimedia production projects focusing on aerial cinematography and drone operations, achieving a 25% increase in project completion rate.
- Managed the setup and maintenance of drone equipment, ensuring 100% equipment readiness for all shoots, minimizing downtime.
- Utilized Python scripting to troubleshoot drone control systems such as Pixhawk, Naza, KK, KISS, etc. improving diagnostic capabilities and reducing system failures.
- Developed and implemented drone safety protocols and maintenance schedules to ensure compliance with industry standards, resulting in improved team efficiency and readiness for high-profile projects.

Myanmar radio & television (MRTV), Dept. Of Telecommunication, Government of Myanmar *Yangon, Myanmar*
Technical Chief and UAV Flying Instructor *August 2015*

- Trained 25 engineers of MRTV on Drone Technology & Aerial Photography helping them achieve a 30% increase in viewership.
- Instructed engineers on drone piloting techniques, maintenance of drones, camera peripherals, safety standards, and deployment of drone equipment, ensuring operational efficiency and safety compliance.
- Conducted sessions on Drone Safety Protocols, Safety Standards, & Deployment Procedures for Drone Equipment.

GRANTS AND INNOVATIONS

Design Impact Grant Awardee, DePaul University *June 2024*

- Awarded $4,500 competitive innovation grant for developing an AI-powered Immigration Assistant designed to help international students navigate complex U.S. visa regulations and maintain compliance.
- Concept focused on regulatory interpretation, real-time guidance, and risk mitigation for F1 and OPT students.
- Led a 3-member cross-functional team, directing product strategy, regulatory research, and execution planning from concept to funded prototype stage.

CERTIFICATIONS & LICENSES

- FAA Part 107 Certified UAV/UAS Pilot, USA *February 2023*
- DGCA RPAS Certified UAV/UAS Pilot, India *January 2022*
- ATC Photography – Sir J.J. School of Arts, Mumbai, India *April 2018*

EDUCATION

DePaul University *Chicago, IL*
MA in Digital Communication and Media Arts *June 2024*
Mumbai University *Mumbai, India*
Bachelor of Mass Media *April 2018*

LEADERSHIP & VOLUNTEER

Jarvis Innovation Center, DePaul University *August 2023- Present*
Advisory Board Member

- Led projects to integrate cutting-edge multimedia tools into the curriculum, enhancing students' learning experiences and technical skills.

- Advised on the development of processes to improve the efficiency and effectiveness of multimedia production within the university.
- Led the initiative to modernize technological infrastructure, ensuring students have access to industry-leading tools and resources.
